2023-2024

ABOUT US

Empowering Minds, Igniting Futures: Building Tomorrow through STEM!

In 2021, Audeamus 8574 emerged from MGCI Robotics (Marc Garneau Collegiate Institute Robotics Club). Despite the challenges of an ongoing pandemic – a lack of members and resources – our debut was marked by a series of impressive achievements during our rookie year. With steadfast support and an unwavering dedication, we continue to chart our course towards competitive excellence in the First Robotics Competition (FRC).

Beyond FRC, our mission is: to empower and educate all members of our community, especially those who are marginalized and underrepresented. Diversity is our strength and over half of our members identify as female or non-binary, with the large majority representing visible minorities. Creating an environment of inclusivity and warmth is our top priority, and our workshops are open to all, regardless of experience. We're not just building robots; we're building a community.

First Robotics Achievements

- **York University Qualifier** 2022
 - Captain of 4th Alliance
 - Highest Rookie Seed
 - Rookie Inspiration Award
- **St Mary CSS Qualifier** 2022
 - Qualifier Rookie All-Star Award
- **Ontario District Championships** 2022
 - District Rookie All-Star Award
 - Qualified for First World Championships
- **Game Design Challenge** 2021
 - Rookie Design Award

SPONSORSHIP TIERS

The contributions of our sponsors have been crucial to the success of our robotics journey. Beyond financial support, donations such as tools, materials, or services are also strongly appreciated! We are incredibly thankful to our sponsors, and to express our gratitude, we offer various benefits as detailed below.

	Small Business* \$300+	Bronze \$200+	Silver \$500+	Gold \$1000+	Diamond \$2500+
Newsletter	★	★	★	★	★
Name and Logo on Website	★	★	★	★	★
